AMUKELANI MABIRIMISE

WEB DEVELOPER

I'm a 22 years old boy currently studying at ALX I'm doing my specialization of 3 months while I also got a internship at CODSOFT to gain experience out of the ALX field. I'm seeking for a Web Development JOB

EXPERIENCE IN ALX & CODSOFT

FULL STACK DEVELOPMENT EXPOSURE:

- Gained proficiency in both front-end and back-end technologies, covering a wide range of languages and frameworks including python, c and javascript.
- Developed a deep understanding of the entire web development process, from ideation to deployment.
- Collaborated with peers on team projects, enhancing skills in version control, collaborative coding, and agile development methodologies.

FRONT-END SPECIALIZATION:

- Completed a rigorous three-month specialization in front-end development, focusing on advanced HTML5, CSS3, and JavaScript techniques.
- Acquired expertise in designing and implementing responsive and user-friendly interfaces.
- Proficiently used Git for version control, branching, and collaborative development, contributing to a streamlined and efficient workflow.

REAL-WORLD PROJECT INTEGRATION:

- Successfully integrated learned front-end skills into real-world projects, contributing to the development of visually appealing and functionally robust web applications.
- Applied best practices for scalability, security, and performance optimization.
- Educational institutions and online classroom management
- Demonstrated problem-solving skills by identifying and resolving front-end issues efficiently, contributing to project timelines and success.
